

AQUALYTE-FORTE

PACKAGING
10 x 100 g sachet
100 x 100 g sachet
10 kg bag

WATER SOLUBLE ELECTROLYTES AND VITAMIN C FOR RE-HYDRATING HEAT STRESSED ANIMALS

Registration number: V18289 (Act 36 of 1947)

BENEFITS

Aqualyte-forte contains chelated electrolytes that improve bioavailability and absorption. With quick and effective absorption of minerals, the negative effects of heat stress can be countered. Organic acidifiers, such as citric acid, lowers the pH in the intestine and activate digestive enzymes. The lower pH also prevents growth of pathogenic bacteria.

COMPOSITION

Nutritive values

Parameter	Unit	Min	Max
Vitamins:			
Vitamin C	g/kg	100	
Minerals:			
Copper	g/kg	2.4	
Manganese	g/kg	0.10	
Zinc	g/kg	3.50	
Potassium	g/kg	32.0	
Magnesium	g/kg	0.50	
Sodium	g/kg	30.0	
Additives:			
Dextrose	g/kg	250	900

INSTRUCTIONS OF USE

For effective use of Aqualyte-forte, administer for a minimum of two days.

POULTRY AND OSTRICHES

Day old chicks to 7 days of age:

Mix 100 g per 150 litres of cool drinking water.
